

**YOU ARE INVITED TO AN
INFORMATIONAL MEETING REGARDING THE**

Redwood Area Broadband Initiative

Monday, August 29, 2011

“Don’t Be Left Behind”!

.....as a business,
.....as a citizen
.....as a online learner
.....as a community
.....as a business
.....as a producer
.....as a NetFlix user

Does it take hours to download a file or movie?

**Do you depend on bandwidth to do your
business daily?**

**Do you depend on GPS for planting your
crops? Or online banking?**

**Do you know what speed your Internet
connection currently is?**

**You and your neighbors and co-workers from across the county
are invited to attend an informational meeting on the future of
Broadband in Redwood County**

Monday, August 29, 2011

5-6 p.m. Social/Networking

6-8 p.m. Presentations — Redwood Area Community Center

900 Cook Street, Redwood Falls, MN 56283

- Minnesota has adopted a broadband mandate that will go into effect in 2015 which would require a minimum of 10 MB download and 5 MB upload speed to be accessible to all citizens of Minnesota. How will we make this happen in Redwood County?
- Mark Erickson—Renville/Sibley Fiber, and Pam Lehmann—Lac qui Parle County Broadband will share with us what they have been working on in their counties to address this new infrastructure demand. They will be sharing and educating us on what the future of broadband will mean to us for business development, recruitment, labor force retention and attraction, and life-long learning opportunities for all ages.
- **Please RSVP your attendance by Wednesday, August 24, to 507-637-4004 or email julie@redwoodfalls.org — Event is free — need a count for the caterer. THANK YOU!**
